

How Do I Appear on the Currently Map?

If you want your Moment to show up on the map, it's super easy.

Here's a clear and beginner-friendly Help Center article for:

The Currently Map lets others see what people are doing *around them* — in real-time!

How to Show Up on the Map

1. Post a Moment like you normally do
2. Make sure your location is turned on

- ☐ You'll see a prompt: *"Add location to Moment?"*

- ☐ Tap Allow / Yes

3. Choose to share your Moment as Public (not just with followers)

Once posted:

Your pin (location) will appear on the Live Map

Others nearby can tap your pin to see your Moment

Map Visibility Conditions

To appear on the map:

- ☐ Your GPS/location must be ON
- ☐ Your Moment must be Public
- ☐ Your account should be verified (if required by app rules)

Private Moments or Moments shared only with followers won't show on the map.

Why Show Up on the Map?

- ☐ Meet new people nearby
- ☐ Discover trending places, events, and vibes

- Boost your visibility — more people can find and follow you!

How to Manage Your Map Settings

You can always turn off map visibility later:

Go to Settings → Privacy → Map Sharing

Ready to light up the map?

Post a Moment with your location on — and let the world see what you're up to *right now*.
