

How Do I Tag Places and Activities in a Moment? Here's how to do it: Tagging places and activities in your moment adds life, context, and discovery power to what you're sharing. It helps others know *what you're doing* and *where you're at* — making your moment more engaging, visible, and relatable.

---

When Can I Tag? You can tag places and activities while creating a moment — right after you tap the '+' button to post.

---

How to Tag an Activity Let people know what you're doing right now: Steps:

1. Tap the '+' icon to create a moment
2. Select Activity
3. Choose from a list of popular activities — like: Gaming Working Gyming Eating Out Shopping Studying Partying
4. Tap to select your current activity
5. It'll now be tagged in your moment and visible to everyone

Can't find what you're doing? Tap "Suggest an Activity" to request a new one.

---

How to Tag a Place (Check-In) Let people know where you are — whether it's a public place or a private space. Steps:

1. After tapping the '+' icon, scroll down to Check-In 2.

Tap to search or select your current location

- You can use GPS or search manually Options may include:
- cafés, parks, gyms, offices, homes, etc.

3. Tap the place → It gets added to your moment

You can choose to skip Check-In if you prefer not to share your location.

---

### Why Tagging Helps Tagging

places and activities:

- Makes your moment more discoverable in feeds and maps
- Increases visibility through C-Rank Helps others find you
- or similar moments nearby Lets people connect with
- real-time trends and locations

---

### A Check-In = A Footfall That Lasts Forever

Every time you check in at a location:

- You leave a digital footprint that adds lasting value to that place
- Your check-in acts as word of mouth — showing others that *you were there*
- Future users visiting the place can discover your moment, creating a legacy of experiences tied to that location

Your each check-in is a footfall to that business — and it stays forever. It's a social proof, a shoutout, and a signal that makes the place more discoverable for everyone.

---

## Summary

TagType	How to Add
Activity	Tap '+' → Choose "Activity" → Select what you're doing
Place	Tap '+' → Tap "Check-In" → Select or search for your current place

---

Pro Tip Combine both Activity + Place for maximum context and visibility. Example:  
" Running at Marine Drive for 30 mins" → More engaging, real, and discoverable!
