

How Do I Update My Display Name and Bio?

Here's how to customize and refresh your info on Currently:

Your display name and bio help tell your story—and they're easy to update whenever you want.

Step 1: Open Your Profile Settings

1. Tap on your profile icon (bottom navigation bar).
 2. Tap the Edit Profile button just below your display name/photo.
-

Step 2: Update Your Display Name

- Tap the Display Name field.
- Enter your new name (up to 30 characters).
 - o This is how your followers and others see you.
 - o Be authentic—choose something that's easy to remember.
- Tap Save or the checkmark ✓ to confirm.

Step 3: Update Your Bio

- Tap the Bio field (optional text area).
- Write or edit your personal description (up to 150 characters).
 - o Share your interests, vibe, or something fun about yourself.
- Tap Save once you're happy with it.

Step 4: Confirm Your Changes

- After saving, your updated display name and bio appear on your profile immediately.
- These changes apply globally—across your profile, moments, and wherever your name appears.

You Can Update Anytime!

- Feel free to tweak your name and bio when your vibe changes:
 - New job / new hobby
 - Wanting a fresh look or vibe
 - Celebrating something special

Display Name Guidelines

- Must be unique and comply with Community Guidelines
- No:
 - Hate speech or harassment
 - Impersonation of others
 - Excessive emojis, special characters, or random punctuation
- Violations may result in name reset or account review

Summary
