

What Are the Basic Features I Should Know as a New User?

Welcome to Currently — the app where real people share real moments, in real time.

Here are the key features you should know as a new user to make the most of your journey:

1. Share a Moment

Your “Moment” is what you’re doing right now — no filters, no edits.

- Tap “+” to post a Moment
- Share a text, photo, or video
- It disappears from public feed after 24 hours but stays on your profile forever

Keep it raw. Keep it real.

2. Streak System

Post daily to build your Streak.

The longer your streak, the more badges and bonus coins you unlock!

- Miss a day? Your streak resets to your last milestone, not zero
- 12 levels, from Spark to Sun

Streak badges are the only ones that give coins — earn more by staying active!

3. Follow People

You can follow others to see what they’re doing — and they can follow you too.

- Your feed shows Moments from people you follow
- Tap “Follow Back” or Explore Nearby to discover others

Follow = grow your community.

4. Live Nearby Feed

Discover what’s happening around you in real time!

- Tap on Live Nearby

- See who's doing what — near your location
- Great for meeting new people, finding events, or just staying in the loop

Currently = social discovery made real.

5. Achievements & Badges

Earn badges by:

- Posting consistently
- Gaining followers
- Getting likes & views on a single post

Go to Profile → Achievements to track them.

Only Streak Badges reward bonus coins, but all badges boost your visibility and vibe.

6. Coins & Rewards

Earn Coins by:

- Posting Moments (especially Streaks)
- Inviting friends
- Unlocking badge levels

Redeem coins soon for exciting rewards and offers! (Feature expanding soon)

7. Invite & Earn

Invite your friends to Currently using your referral link.

- You earn coins when they sign up and build a streak
- They get a fast start by connecting with someone real — you!

More invites = more rewards.

Bonus Tips:

- You can edit your name, photo & bio from your Profile → Edit

- Tap on any Moment to see views, likes, and comments
- Tap and hold on Moments to react, report, or save

That's It!

You're now ready to explore, post, connect, and grow!

Currently is a space to stay real, share life as it happens, and build something genuine — one Moment at a time.
