

## How Does Currently Handle Inappropriate Content?

Here's how we handle it:

Currently is built for real, respectful, and positive social interaction. To keep the community safe and enjoyable, we have strict policies and systems in place to detect and manage inappropriate content.

## What Counts as Inappropriate Content?

We do not allow content that includes:

- ☐ Nudity or sexually explicit material
- ☐ Hate speech, racism, or discrimination
- ☐ Harassment, bullying, or threats
- ☐ Violence or graphic content
- ☐ Spam, scams, or misleading promotions
- ☐ Impersonation or invasion of privacy

Violating any of these can lead to content removal, account restriction, or permanent ban.

### 1. Proactive Moderation

We use a mix of:

- ☐ AI-based content filters to auto-flag nudity, violence, and spam
- ☐ C-Rank (Content Quality System) to prioritize genuine and safe content
- ☐ Human moderation to review flagged posts with context and fairness

### 2. Community Reporting

Everyone can help keep Currently clean:

- ☐ Tap the ':' menu on any moment, comment, or profile
- ☐ Select "Report" and choose the reason

- ☐ Reports are confidential and sent directly to our moderation team

We review every report seriously and take appropriate action quickly.

### 3. What Happens If Someone Posts Inappropriate Content?

Depending on the severity and frequency:

Violation Type	Action Taken
Minor (e.g., spam)	Warning or post removal
Serious (e.g., nudity)	Immediate removal, possible account block
Repeated offenses	Permanent suspension or ban

### 4. Appeals and Fairness

If you believe your content was removed unfairly, you can:

- ☐ Reach out to Support through the Help Center
- ☐ Submit an appeal explaining your side

Our team will review it and get back to you as soon as possible.

### Summary

Step	What Happens
Content is flagged	By our system or via user report
We review it	Moderators evaluate based on guidelines
Action is taken	Post removed, user warned, or account restricted/banned

You can appeal	If you feel moderation was incorrect
