How Do I Avoid Spam or Abuse on the Platform?

Here's how to avoid spam, stay safe, and make the most of your experience:

Currently is designed to be a real, respectful, and engaging space — but like any social platform, you may occasionally come across spam, bots, or abusive users.

1. Be Cautious of Suspicious Accounts

Watch out for accounts that:

Have no real profile photo or bio

Send copy-paste messages or links

Post low-effort or irrelevant content frequently

Ask for personal info or promote external products/services

Ifitfeels fake, it probably is. Don't engage — report and move on.

2.Block or Report Offenders Instantly

Ifsomeone is:

- Harassing you

- Sending spam or suspicious links

- Posting offensive or inappropriate content

Do this:

- Block them → Go to their profile → Tap ⋮ → Select Block User

- Report the content or user → Tap ⋮ on the moment/message/profile → Report

Blocking removes all access. Reporting flags it to our moderation team.

3. Adjust Your Privacy Settings

Want more control over who interacts with you?

- Go to Settings → Privacy

- Switch to a Private Account so only approved followers can see your content

- Limit who can message or follow you

This gives you complete control over your audience.

4. Don't Share Personal Information

Never share:

- Your phone number
- Home address
- Bank details or passwords
- Personal plans (especially if you're alone)

Even in private chat, stay cautious — real-time doesn't mean zero risk.

5.Use Common Sense and Trust Your Instincts

Ifsomething feels off, it usually is.

- Don't click on unfamiliar links
- Don't send money or photos to strangers
- Don't fall for "giveaways" or "brand promotions" that seem too good to be true

Summary

Tip	Why It Matters
Avoid suspicious users	Prevent scams, spam, and fake engagement
Block & report quickly	Stops abuse and helps us improve the community
Use privacy controls	Stay in control of who sees and interacts with your content

Don't overshare	Protect your personal and location info
Trust your instincts	If it feels wrong, take action immediately

Help Us Keep Currently Real

By staying alert and taking quick action, you help keep the platform clean and genuine for everyone.
